Subject: The review of your title for Scopus is complete

Title: Journal of Health and Safety at Work
ISSN / E-ISSN: 2251-807X / 2383-2088
Publisher: TUMS Tehran University of Medical Sciences

Dear Dr. Payam Kabiri,

Congratulations, your Journal of Health and Safety at Work has been accepted for Scopus.

The Scopus Content Selection & Advisory Board (CSAB) has reviewed your application and approved it for coverage.

For your information, the reviewer comments are copied below:

"This Iranian journal has made steady progress since it was last reviewed in 2015, and it is clearly significant for its local audience.

The editor has responded constructively to the earlier review.

It is publishing 30 - 40 articles per annum with limited citation activity.

However, its international impact will remain limited so long as it publishes in Farsi and without a full English language version.

The SCIMAGO website lists 560 journals in the public health category, against which to benchmark the further development of this journal.

See <https://www.scimagojr.com/journalrank.php?category=2739>"

What's Next?

If Scopus already has a license agreement in place with your organization for content access, no further action is needed from your end at this point.

If we do not have a license agreement in place, and you are the journal editor or publisher, your Engagement Manager will reach out to you in the next three months to discuss next steps on the content access set-up.

Your Engagement Manager's role is to guide you through the Scopus onboarding process and ensure that everything runs smoothly.

You can learn more about the onboarding process in the Scopus Content Provider FAQ

In general, all recently accepted titles will be listed separately in the Scopus Title list within 1 month after acceptance, see the second tab 'Accepted titles'.

If you can't find your title there, please check the tab 'Scopus sources'.

Yours sincerely,

Scopus Title Evaluation Support
